

This listing of claims will replace all prior versions of the claims in the application:

Listing of Claims:

1. (Original) A method comprising
 - a) attaching a first skin to a first surface of an open cell foam to form a precursor for a door, window or panel; and
 - b) attaching a second skin to the precursor in a separate step from step a).
2. (Original) A method according to Claim 1 wherein the second skin is attached to a second surface of the foam, the second being an opposing surface to the first surface.
3. (Currently amended) A method according to ~~any preceding claim~~ Claim 1, wherein an adhesive is used to attach the second skin to the precursor.
4. (Currently amended) A method according to ~~any preceding claim~~ Claim 1, wherein, prior to attaching the second skin to the precursor, the precursor is modified.
5. (Original) A method according to Claim 4, wherein, prior to attaching the second skin to the precursor, the precursor is shaped, trimmed, routed, drilled, varnished, coloured, or waxed.
6. (Currently amended) A method according to Claim 4 ~~or Claim 5~~, wherein, prior to attaching the second skin to the precursor, the precursor is adapted to receive one or more pieces of glazing.
7. (Currently amended) A method according to ~~any of Claims 4 to 6~~ Claim 4, wherein, prior to attaching the second skin to the precursor, the precursor is adapted to receive one or more fittings for the door, window, or panel.

8. (Original) A method according to Claim 7, wherein the one or more fittings are selected from the group consisting of: a handle, a lock, a plate, a catch and a hinge.
9. (Currently amended) A method according to ~~any preceding claim~~ Claim 1, wherein step b) is performed at least one hour after step a).
10. (Currently amended) A method according to ~~any preceding claim~~ Claim 1, wherein step b) is performed at least 24 hours after step a).
11. (Currently amended) A method according to ~~any preceding claim~~ Claim 1, wherein the second skin is attached to the precursor at a different location from the location at which the first skin is attached to the second skin.
12. (Original) A precursor for a door, window, or panel, comprising a skin attached to one face of an open cell foam, but not to an opposing face of the open cell foam.
13. (Original) A precursor according to Claim 12, further comprising reinforcing means.
14. (Original) A precursor according to Claim 13, wherein the reinforcing means is a mesh.
15. (Currently amended) A precursor according to ~~any of Claims 12 to 14~~ Claim 12, further comprising a frame.
16. (Original) A precursor according to Claim 15, wherein the frame is a wooden frame.
17. (Cancelled).
18. (Currently amended) A method comprising attaching a first precursor to a second precursor, wherein each of the first and second precursors is ~~a precursor according to any of~~

~~Claims 12 to 17~~ comprises a skin attached to one face of an open cell foam, but not to an opposing face of the open cell foam.

19. (Currently amended) A kit comprising a precursor ~~according to any of Claims 12 to 17 comprising a skin attached to one face of an open cell foam, but not to an opposing face of the open cell foam,~~ and a second skin that is not attached to the precursor.

20. (Currently amended) A kit comprising a first precursor and a second precursor, wherein each of the first and second precursors ~~is a precursor according to any of Claims 12 to 17 comprises a skin attached to one face of an open cell foam, but not to an opposing face of the open cell foam.~~

21. (Currently amended) A kit according to Claim 19 ~~or Claim 20~~, further comprising one or more of:

- a) an adhesive,
- b) a reinforcement means,
- c) glazing,
- d) a door, window or panel fitting, and
- e) a paint, varnish, lacquer, stain or wax.
